

WE FOLLOW A STANDARD FOR ACHIEVING GOOD WORKING CONDITIONS AND A GOOD WORKING ENVIRONMENT

Our workplace is certified according to the IP Standard for Working Conditions. The certification covers both employees and contracted workers.

What does having a certified workplace mean?

Among other things, we need to be able to prove that we have employment contracts, that we comply with legislation or collective agreements in terms of working hours and holidays, and that we comply with requirements that ensure a reasonable wage level. We implement what is important for ensuring a good working environment and comply with legislation. For instance, this means that we prevent accidents. If we provide accommodation for our workforce, we ensure that the accommodation is safe and will not cause ill health.

How are we monitored?

An independent auditor comes to our workplace to check that we follow the rules. The auditor reviews our documentation, conducts interviews with our employees and takes other measures. Those who are interviewed can share their experiences with the auditor.

As part of the workforce, would you like to ask a question or submit a comment?

Start by talking to your supervisor or your immediate manager. You can also contact the independent audit firm. Please contact us at:
